

TABLET FORMULATION FROM SEPTEMBER 2026

Daily tablet burden reduced by half

With BRUKINSA 160 mg tablets, the daily tablet intake is **reduced by 50%**, from **4 capsules** to **2 tablets**^{1,2}

One tablet is **twice the strength** of a capsule^{1,2}

Reduced size for easier swallowing

The film-coated tablet is almost **one-third smaller in length** than the capsule which may make it **easier for patients to swallow**¹⁻³

Convenient at-home dosing taken once or twice daily

BRUKINSA remains the only BTKi to offer **flexible once- or twice-daily dosing options**^{1,2,5,6}

The efficacy and safety you have come to expect

BRUKINSA tablets continue to offer the same **expected efficacy and safety** as the capsules⁴

Please reach out to your local Key Account Manager if you have any questions or require further information about ordering BRUKINSA.

Prescribing information and adverse event reporting information can be found on the next page

BTKi, Bruton's tyrosine kinase inhibitor.
